

Pro Audio & lighting

Pro Audio

From a simple two speaker PA for an announcement, all the way to flying a huge stack for a concert or festival, we have the capability and technical experience to deliver the finest sound.

With experience in corporate events, club nights, concerts and festivals, we have logistics and sound design sewn up, so you can trust us to perform well above normal standards.

Using Martin Audio systems including line array we can cater for any type of event requiring a professional sound system.

Compared to your previous suppliers, you'll be surprised with the quality and cost of our packages.

Send us your requirements and we will happily provide you with a competitive quote.

Lighting

Using only the best lighting products on the market, from suppliers like Martin, Clay Paky, Griven, Avolites and Studio Due, we can produce fantastic illuminations for any event.

Our technicians are some of the best in the country and have worked on projects for dozens of international acts, illuminated many buildings and structures, and lit some of the largest festival stages in the UK and abroad.

From a small gig to a large concert you can rest assured we will design, prepare and perform above and beyond your normal expectations.

All in all, if you need to illuminate an event, then we'd love to help.

Technicians and Riggers

From a simple PA build, to 140ft wide sets, to a three night concert with LED video walls, flown line arrays and multiple change-overs, our crew can deal with the demands and technical issues for any event. We wouldn't employ them if they couldn't.

Our sound, light and video technicians are a skilled and dedicated bunch, with the satisfaction of working with many top names under their belts.

We educate and train our crew regularly to make sure they are up to date with all current technologies, and they naturally inform us of any improvements to a specification, which results in smoother and better planned events.

If logistical assistance is needed then we can help here as well. We have good partnerships in place for trucking, shipping and air freight, and if a tour bus is needed then we can also help.

Trust our guys! We have for years!!
